## WELCOME TO KNITTER'S PRIDE 2023....

It has been quite the year for us! As we move into this new season of creative endeavors, the word “new” seems appropriate, since we have some exciting new things to show you. As the world’s largest manufacturer of knitting needles, crochet hooks and fiber work accessories, we are constantly seeking new ways and products that serve our community of makers. Keeping up with our customer’s interests and creative growth has led to some exciting new developments for our company which we look forward to sharing with you.

Our company’s team of handwork experts includes master knitters and crocheters, many of whom are expert on the subject of fine fibers. It has long been their dream to produce a line of yarns that reflects our passion on the topic, as well as our nation’s legacy as a producer of beautiful handwork. This year we are proud to introduce that dream come true: Symfonie Hand Dyed Yarns. We have created a catalog to properly showcase our newest line so be sure to ask for it. You can also easily find us at [www.symfonieyarns.com](http://www.symfonieyarns.com)

When we heard from our retailer associates that the requests for classes in Punch Needle Embroidery were growing rapidly, we knew the time was right to provide them with the right tool and materials that would satisfy their customer’s interest on the subject. We invite you to look at the special Punch Needle we designed and learn more about the many benefits of the craft.

Knitter’s Pride is part of KnitPro, a family-owned enterprise that manufactures superior quality needlecraft tools and accessories. KnitPro was founded in 2006, with an initial team of 7. It now employs over 1500 people, the majority of whom are women. Knitter’s Pride was created in 2011 to serve the North American & Canadian markets.

Our regard and commitment to our employees and their welfare is equaled by our pride in the quality of our products. Our manufacturing facility is located in Jaipur, India, in an eco-compliant factory and on a campus that utilizes state of the art environmental practices, including a 100% clean water system that ensures the highest degree of safety for all workers and reflects our respect for the planet.
