# Smart Interchangeable Cords in Stainless Steel

Our Smart Cords are so named because they do so many things at once and they do it all so well!!

First, they are strong and flexible since they are made of finest grade stainless steel strands. The cord's nylon coating is silky smooth and color coordinated with The Mindful collection - a soothing teal color.

They are marked at 1" intervals so that measuring is conveniently done on the spot. As importantly, they are memory free so there's no annoying twisting.

The teal-colored end caps, carrying the floral print, ensure that work stays put on the cord should it be necessary to remove a needle. The cord keys, used for tightening the tips to the cord, have a color coordinated top.

**The Mindful Collection Smart Cords will work with all Knitter's Pride needles**
